That is a good idea and the new home(s) are in the same general area as the Haystack #1 AUM.

Thanks,

Should we show the new home to Robin and give her this photo and info?

Good afternoon

7 Navajo residents lived in this small 600 square foot home. The foundation of this home we made using mine waste material from the Haystack mining area. The new home, being constructed by NN CHID, is in

the background. The new home will be a 4 bedroom, 2 bath, ADA home. The mountain in the background is the Haystack mountain.

Please let me know if you have any additional questions. The house should be completed and the residents moved in by Sept 1.

Thank you,

Randy B. Nattis
